#### Physical Requirements

This job involves operating a computer keyboard.

Secure internet access required.

This job is entirely remote.

#### Summary

Seeking a WordPress developer to occasionally consult with FutureHeights staff on the management of our website. Most often we need a quick fix and occasionally an expert who can safely run updates, add plug-ins, etc. Maintaining a brand focused website is vital to effectively serving the Heights community.

#### Details

Seeking a professional who manages the more complex challenges of using or maintaining a WordPress website; someone who holds more expertise in coding and web development than the average user. You must be able to manipulate the infrastructure and ecosystem of WordPress sites and be current on platform-related updates.

*\*This role includes the potential for fee-based work to manage complex issues.*

*Volunteering is a proven pathway to employment.  
Keep your resume' fresh with new experiences!*
